We create and nurture green spaces

Every time you are supporting our work you are creating and nurturing native green spaces while empowering communities. Our mission is to create opportunities for people who face systemic disadvantages through meaningful work and sustainable career paths. Check our various services and see what best suits for your desire!

Wildflower acknowledges the Traditional Custodians upon whose ancestral lands we live and work. We pay respect to their Elders, past, present and emerging, and acknowledge the continuing connection Aboriginal and Torres Strait Islander people have to the land, sea, and community.

Horticulture services with a purpose:

- Create gardens
- Landscape Maintenance
- Land Management Projects
- Community Projects

We offer meaningful and sustainable employment opportunities to Indigenous and non Indigenous people from the community facing barriers to join the workforce.

Create gardens

www.wildflower.org.au

Wildflower are placemakers disguised as landscapers. We create beautiful and unique gardens and natural landscapes for clients seeking a service with a difference. Wildflower have a focus on sustainability and community benefit. The service we provide will promote both.

We work with government, business and community clients to provide an end to end service that nurtures the local community and local environment.

Our gardens and landscapes are educational, interactive, beautiful, diverse, unique and innovative.

We are a collaborative outfit that love to work on small, medium to big projects. Under this category, we offer the following services:

-
- Partnering on large, medium, small Infrastructure projects to deliver complete softscaping works.
 - Indigenous gardens- Create a cultural space that is inclusive and sustainable for your site.
 - Pocket garden revamps-Bring some colour, diversity and interest to streetscapes.
 - Green city creations-Habitat and canopy cover projects across the city and surrounds.
 - Living art- Create a living breathing artform in a Wildflower garden for your community project, business or government initiative.
 - Educational gardens and landscapes- Use plants to tell a story, promote culture, environmental awareness and sustainability through a natural landscape that is interactive.
 - Bush food gardens- Create an edible food garden incorporating ancient and healthy bush foods. We can also create an edible garden incorporating both Indigenous and non indigenous produce.

Landscape Maintenance

www.wildflower.org.au

Access to greenspace is vital to our health and wellbeing. As people, a healthy and sustainable community means a healthy and sustainable environment.

We provide sustainable landscape solutions to all parks, greenspace and gardens across the Eora nation and surrounds (Sydney).

Our maintenance service moves away from the over reliance of noisy power tools and aims to create a sense of place wherever we are working.

We are efficient, sustainable and approachable. We take pride in the landscapes we care for.

Our services include;

-
- Public parks and greenspace maintenance
 - Maintenance of gardens in Facilities
 - Schools, Hospital and government facilities
 - Care for gardens we have created, offering end to end create and care service.
 - Garden makeovers and tidy up for large and neglected sites
 - Apartment (strata) gardens

Land Management Projects

www.wildflower.org.au

Restoring cultural heritage by regenerating Indigenous ecology is central to our organisation. Aboriginal land management practices are a proven method of sustaining a healthy and connected environment and ecology. Our practises and mission are an important part of culture and Identity. Connection to country is vital to the health and wellbeing of our young ones, team and broad community.

We aim to restore the natural integrity of this sacred land, one plant and tree at a time in partnership with our local Aboriginal Land Council.

-
- Bush regeneration and restoration projects;
 - Returning local native and Indigenous ecology projects
 - Bush care/ land care
 - Habitat restoration
 - Tree planting projects
 - Weed management solutions
 - Habitat corridors for native wildlife
 - Bush fire hazard reduction

Community Projects

www.wildflower.org.au

Our perfect blend of lived and professional experience and expertise make us authentic community builders.

We are grassroots, community led and community backed Indigenous not for profit with a sustainable business model.

We are community builders, mentors, community leaders, artists and placemakers. We offer community building and mentorship services to government and community clients.

We can also offer team building- create a garden, plant a tree, projects and initiatives for business and corporate.

We can design and consult on a community project based on partnership and collaboration.

Talk to us, let's work together.

- Creation and building of Sensory Indigenous gardens;
- Building dynamic and interactive spaces in schools such as yarning circle;
- Creating green spaces with edible Indigenous plants;
- Educating community and creating ecosystems for native fauna;

Business for good
